

# Symptoms?

**YES**

**NO**

Contact Student Health, or  
TimelyCare, or your physician.

Inform [kwhite@okwu.edu](mailto:kwhite@okwu.edu)

Follow your medical  
professional's  
recommendation.

Isolate if you have symptoms  
and while you are waiting on  
your test results. If test is  
positive - continue to isolate.

**NEGATIVE:**

Return to class when your  
symptoms are gone and  
you are fever free for 24  
hours without the use of  
fever-reducing medicine.

## Quarantine

Students in close contact with an  
infected person will quarantine for ten  
days. Students in quarantine will go to  
class with masks inside and outside  
the classroom and buildings, always  
keep hand sanitizer with them, and  
wash hands frequently. Students in  
quarantine will pick up to-go meals  
and eat in their rooms.

## Isolation

For students in isolation, if no  
symptoms have occurred  
(asymptomatic) by day five, or if  
symptoms are resolving, including  
being fever-free for 24 hours without  
the use of fever-reducing medicine,  
the individual may move to  
quarantine protocols on day six. Will  
remain in quarantine until day 10.

**POSSIBLE EXPOSURE?**

Continue to monitor  
health, and practice good  
hygiene.
